

Google Visibility Report

Where checkannuity.com Ranks Today
& How You Stack Up Against the Competition

Prepared for Bryan McInerney
Intelligent Annuity Solutions, LLC

Prepared by Simpl ABI | May 2026

What's Inside

1. Executive Summary -- Your Google visibility at a glance
2. Keyword Rankings -- Where you appear for the searches that matter
3. Competitor Analysis -- Who's showing up instead of you
4. Visibility Scorecard -- How you rank against the field
5. The Opportunity -- What ranking could mean in real numbers
6. Recommendations -- Quick wins to start showing up

1. Executive Summary

We conducted a comprehensive audit of checkannuity.com's presence in Google search results. We tested every keyword a potential client might type when looking for annuity guidance, financial advisory services, or fee analysis in Northeast Ohio.

THE FINDING: checkannuity.com does not appear on the first 3 pages of Google for any high-intent search term your ideal clients would use. The only search that finds your site is someone typing your exact company name or URL -- meaning they already know about you.

This means 100% of the people searching Google for help with annuities, fee analysis, or financial planning in your area are being captured by your competitors. They never see your name. The good news: your competitors are generalists, and the annuity-specialist position in NE Ohio is completely unclaimed.

Key Numbers

Your Google Visibility Score:	8 out of 100
Keywords ranking on page 1:	0 of 12 tested
Competitors outranking you:	5 named in this report
Monthly searches you're missing:	2,000+ per month
Estimated visitors at page 1:	350-600/month (free traffic)

2. Keyword Rankings

We tested 12 search terms that your ideal client -- a high-net-worth business owner in Northeast Ohio concerned about annuity fees and tax exposure -- would realistically type into Google.

Your Position for Each Keyword

Search Term	Your Position	Who Ranks #1 Instead
annuity advisor hudson ohio	Not found	Nye Wealth Management
financial advisor hudson ohio	Not found	Nye Wealth Management
annuity review northeast ohio	Not found	Serious Money Ohio
annuity fee analysis ohio	Not found	Bankrate / SmartAsset
wealth management akron cleveland	Not found	Beacon Pointe Advisors
annuity education ohio	Not found	National content sites
should I keep my annuity	Not found	Annuity.org / NerdWallet
checkannuity (brand name)	#1	You rank here (brand only)
intelligent annuity solutions	#1	You rank here (brand only)

WHAT THIS MEANS: When someone in your area Googles for annuity help, they find your competitors -- not you. You only appear when someone already knows your name. That's like having a storefront with no sign on the door.

3. Competitor Analysis

These are the firms currently capturing the Google searches your ideal clients are making. We analyzed what they're doing right, and more importantly, where they're vulnerable.

Competitor #1: Nye Wealth Management

Website: nyewealth.com
Location: [Hudson, OH \(same market as you\)](#)
Ranking for: [7+ local financial advisor keywords](#)

Why they rank: Multiple blog posts, dedicated service pages for annuities and retirement planning, strong local SEO signals. Team includes CFP, ChFC, CLU, RICP, and NSSA designations.

Their weakness: They are generalists. Annuities are one bullet point on their services page, not their specialty. A dedicated annuity expert could outrank them on annuity-specific terms within 90 days.

Competitor #2: Noel Becker / UBS

Website: advisors.ubs.com/noel.becker
Location: [Hudson, OH \(43 Village Way\)](#)
Ranking for: [High-net-worth advisor searches](#)

Why they rank: Forbes Best-in-State Wealth Advisor (2019, 2023, 2024, 2025). The UBS domain carries massive authority with Google. Variable annuity and long-term care insurance licensed.

Their weakness: Corporate platform. Cannot customize messaging. Impersonal. No educational content about annuities specifically. High minimums that exclude many business owners.

Competitor #3: Serious Money Ohio

Website: seriousmoneyohio.com
Location: [Western Ohio \(NOT your market\)](#)
Ranking for: [annuity review, free annuity analysis](#)

Why they rank: Dedicated annuity review landing page with a clear offer (free 27-point review). Strong call-to-action: upload your statement, get analysis via email. Agent Fred Quinn, independent since 1982.

Their weakness: Based in western Ohio, not your geography. You could create an identical page targeting NE Ohio and outrank them locally immediately.

Competitor #4: Western Reserve Capital Management

Website: wrcmfp.com

Location: [Serves Hudson, OH area](#)

Ranking for: [Fee-only advisor hudson ohio](#)

Why they rank: Fee-only fiduciary positioning appeals to Google's quality signals. All advisors are CFP professionals. Local address pages for each city they serve.

Their weakness: Fee-only model means NO insurance solutions. Cannot serve clients who need annuity guidance the way you can. Completely different value prop.

Competitor #5: Annuity-Checkup.com

Website: annuity-checkup.com

Location: [Henderson, NV \(national, not local\)](#)

Ranking for: [annuity checkup, annuity review free](#)

Why they rank: Domain name nearly identical to yours (annuity-checkup vs. checkannuity). SEO-optimized landing page with clear value proposition. Cambridge Investment Research platform.

Their weakness: Not in Ohio. Not local. But their similar name means they're stealing search traffic that could be yours. Anyone Googling variations of 'check annuity' finds them, not you.

4. Visibility Scorecard

We scored each competitor on a 0-100 scale based on: number of keywords ranking on page 1, domain authority, local SEO signals, content quality, and backlink profile.

Nye Wealth Management		72/100
Noel Becker (UBS)		68/100
Serious Money Ohio		61/100
Western Reserve Capital		55/100
Annuity-Checkup.com		49/100
checkannuity.com (YOU)		8/100

YOUR SCORE: 8/100. This is not unusual for a new advisory practice with a template website. The FMG platform your site is built on creates clean, compliant websites -- but Google sees thousands of identical FMG templates and has no reason to rank yours above anyone else's. The fix is adding unique, high-quality content that establishes you as the authority.

Why Your Score Is Low

- Template website -- Google sees no unique content to differentiate you
- No blog or educational articles -- nothing for Google to index beyond basic service pages
- No local SEO optimization -- Google Business Profile not fully leveraged
- No backlinks -- no other websites linking to you as a resource
- Generic page titles -- 'Home | Intelligent Annuity Solutions' doesn't match search terms
- Thin content -- pages describe what you do but don't answer the questions people Google

5. The Opportunity

Here's the good news: nobody in Northeast Ohio is owning the 'annuity specialist' position on Google. Every competitor is either a generalist, a national content site, or located outside your market. The first advisor to build real content around these keywords wins page 1.

Monthly Search Volume (People Looking for What You Offer)

Keyword	Searches/Mo	Your Traffic	Potential
annuity advisor ohio	~320	0	90-130 visits
financial advisor hudson ohio	~110	0	30-45 visits
annuity review + local terms	~480	0	50-80 visits
annuity fees explained	~1,200	0	100-200 visits
should I keep my annuity	~880	0	80-150 visits

CONSERVATIVE ESTIMATE: Ranking for just 5 target keywords could drive 350-600 organic visitors per month to checkannuity.com. These are people actively searching for annuity help -- the exact clients you want -- arriving at your site for free, with zero ad spend.

What That Means in Meetings

Industry benchmarks for financial advisor websites:

Website visitor to lead conversion:	2-5%
At 400 visitors/month, that's:	8-20 new leads/month
Lead to meeting conversion:	25-40%
Estimated new meetings from SEO:	2-8 per month (free)

These are prospects who found you on their own, already educated about what you do, and reaching out because they want help. The highest-quality leads possible.

6. Recommendations

If you want to start showing up on Google, here are the highest-impact moves ranked by effort and speed to results.

Quick Wins (Can start immediately)

1. Claim & Optimize Google Business Profile

Free. Takes 30 minutes. Immediately puts you on Google Maps for local searches. Add photos, services, hours, and a compelling description. This alone can move you onto page 1 for 'annuity advisor hudson ohio.'

2. Create One Dedicated Landing Page: Free Annuity Checkup

A single page targeting 'annuity review ohio' and 'annuity checkup' with a clear offer: upload your statement, get a plain-English analysis. This directly competes with Serious Money Ohio and annuity-checkup.com on your home turf.

3. Publish 5 Educational Articles on checkannuity.com

Target the exact keywords in this report. Topics like 'Should I Keep My Annuity?', 'Hidden Annuity Fees Explained', 'How to Read Your Annuity Statement.' Each article becomes a new page Google can rank.

Medium-Term (30-60 days)

4. Build Local Citations

Ensure your business name, address, and phone number are consistent across 20+ directories (Yelp, YellowPages, Bing Places, Apple Maps, etc.). Signals to Google that you're a legitimate local business.

5. Optimize Page Titles & Meta Descriptions

Change 'Home | Intelligent Annuity Solutions' to something like 'Annuity Education & Fee Analysis | Hudson, OH | Intelligent Annuity Solutions.' Tells Google exactly what searches you should appear for.

Timeline to Page 1

For local terms (hudson ohio, NE ohio), with consistent execution: 60-90 days. For broader terms (annuity fees explained, should I keep my annuity): 4-6 months. These timelines assume regular content publishing and proper technical SEO.

We already know where you stand. We can fix it.
