

Sample Prospect List

HNW Business Owners - Northeast Ohio

Prepared for: Bryan McInerney

How We Find These People

- Ohio Secretary of State filings (LLC/Corp registered agents who are also owners)
- LinkedIn Sales Navigator (Owner/CEO/President + NE Ohio + company size 10-200)
- Local business journals (Crain's Cleveland Business, Akron Beacon)
- Industry association directories (manufacturing, construction, professional services)

We target owners of businesses with \$2M-\$50M in annual revenue - large enough to generate high personal income, small enough that the owner IS the decision-maker on their own financial planning.

Why These People Are Ideal

Every person on this list shares these characteristics:

- High personal income - likely \$300K-\$1M+ annually
- Probably already has a wealth manager - but hasn't questioned fees in years
- Sensitive to taxes - business ownership creates complex tax exposure
- Has a future exit event - business sale, partner buyout, or succession plan

- Underserved by current advisor - generic portfolio, no insurance strategies
- NE Ohio based - within Bryan's geography

Volume Available

For NE Ohio alone, we estimate 500-2,000+ qualifying business owners based on Ohio SOS data, LinkedIn Sales Navigator, and revenue/employee filters.

At a pace of 15-25 outreach emails per week, this is over a year of prospects before needing to expand geography.

Note: This is a representative sample showing the types of business owners we target. Actual prospect lists are verified with email addresses and LinkedIn profiles before any outreach begins.
